Professional Summary

I am a passionate college student with strong skills in web development. My expertise includes front-end technologies like HTML, CSS, and JavaScript, as well as back-end development using Node.js. I am enthusiastic about building dynamic, responsive web applications and continuously learning new technologies such as React.js and TailwindCSS.

Skills

- Front-End: HTML, CSS, JavaScript, React.js, TailwindCSS
- Back-End: Node.js
- Version Control: Git

Projects

1. Personal Portfolio Website

Developed a responsive personal portfolio website to showcase my web development projects. Built with HTML, CSS, and TailwindCSS, with a focus on user-friendly design and fast loading times.

2. Task Management App

A task management application built using React.js and Node.js. Users can create, update, and delete tasks, while the app saves data on the backend using a MongoDB database.

3. E-commerce Website

Created a basic e-commerce website prototype using React.js for the front-end and Node.js for the back-end. Implemented features such as product listings, shopping cart, and checkout system.

Education

- [Your College Name]

Bachelor of [Your Degree]

Expected Graduation: [Year]
